Projects

Inspo-gram

React.js, React Router, Javascript, Express

Node.js, Knex, PostgreSQL

inspo-gram.firebaseio.com

<https://github.com/S-Romberg/Inspogram-client>

An app modeled after Instagram that inspires artistic Instagram posts. Pictures and quotes are paired by category to give you the best (and most believable) Insta you can have.

Galvanize Dogs

React.js, JavaScript, Express, Node.js

Knex, PostgreSQL

galvanize-dogs.firebaseio.com/

github.com/S-Romberg/Galvanize-Dogs

An app built by three students in just five hours. It's a simple web app that is simply and elegantly styled to show all the dogs that accompany their owners to Galvanize.

Music Playground

React.js, JavaScript, Express, Node.js, Knex

PostgreSQL

github.com/S-Romberg/Music-Playground

A functioning MVP that was built in a day for Startup Weekend Denver EDU. It is a music learning app that plays a note when the egg is clicked, if you guess the note correctly you move forward in the game. We also pitched the MVP and business models to the judges at the event.

Island Life

JavaScript, HTML, CSS

islandtoyou.firebaseio.com/

github.com/S-Romberg/islandLife

My team of 3 made a web app that pulls cocktails and smoothies from an api and displays their name and photos to a list and then populates recipes, ingredients, and photo on user click. There is also an interactive Falling Fruit map that filters by type of fruit.

Skills

JavaScript

HTML

CSS

Python

Git/Github

Cypress

React.js

Redux

Angular 6

PostgreSQL

Node.js

Heroku

Agile Ideologies

API Libraries Integration

Pair Programming

Project Management

Responsive Design

Test Driven Development

Experience

DISH Network | Dish Tech | 6/17 - 12/17

Englewood, Colorado

Solved 250+ cable TV problems using technical skillset, critical thinking, and effective communication skills to exceed customer satisfaction

Selected out of several hundred employees to participate in national level marketing strategy to push hiring efforts

Romberg Plumbing | Associate | 1/16 - 6/17

Highlands Ranch, Colorado

Developed an online presence by designing and launching company website to expand customer base

Collaborated with head of company and employees to expand technical skillset and master leadership abilities

Education

Galvanize Immersive | 2/18 - 8/18

An immersive course that facilitates the mastery of key hard and soft skills needed to excel in the world of development. Most importantly it introduces its students to the culture of coding and the mindset of learning to learn
